**About Ethernity Networks**

Ethernity Networks (AIM: ENET.L) provides innovative, comprehensive networking and security solutions on programmable hardware for accelerating telco/cloud networks. Ethernity's FPGA logic offers complete Carrier Ethernet Switch Router data plane processing and control software with a rich set of networking features, robust security, and a wide range of virtual function accelerations to optimize telecommunications networks. Ethernity's complete solutions quickly adapt to customers' changing needs, improving time-to-market, and facilitating the deployment of 5G, edge computing, and NFV.

For more information on Ethernity's products and solutions, please see The Company's website at [www.ethernitynet.com](http://www.ethernitynet.com).
